

A very simple webpage. This is an "h1" level header.

This is a level h2 header.

This is a level h6 header. Pretty small!

This is a standard paragraph.

Now I've aligned it in the center of the screen.

Now aligned to the right

Bold text

Strongly emphasized text Can you tell the difference vs. bold?

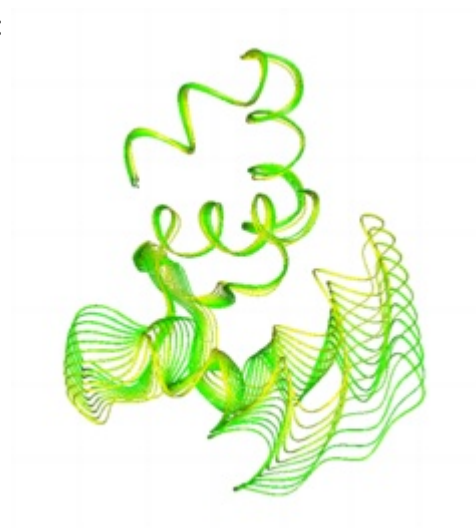

Italics

Emphasized text Just like Italics!

Here is a pretty picture:

Same thing, aligned differently to the paragraph:

How about a nice ordered list!

1. This little piggy went to market
2. This little piggy went to SB228 class
3. This little piggy went to an expensive restaurant in Downtown Palo Alto
4. This little piggy ate too much at Indian Buffet.
5. This little piggy got lost

Unordered list

- First element
 - Second element
 - Third element
-

Nested Lists!

- Things to do today:
 1. Walk the dog
 2. Feed the cat
 3. Mow the lawn
- Things to do tomorrow:
 1. Lunch with mom
 2. Feed the hamster
 3. Clean kitchen

And finally, how about some [Links?](#)

Or let's just link to [another page on this server](#)
